

AVP Rapid Punch Terminal (RPT) System

Worldwide installations...
Unsurpassed performance...

Performance Advantages

1 Bigger & Stronger
Size plus AVP's rigid mounting technique means unparalleled wire retention, no terminal push-through and overall superior strength.

2 Extended Cable Range
The larger diameter barrel allows termination of 20-28 gage wire, solid or stranded, and it properly terminates bulkier 110 Ohm Digital Audio Cable.

3 Multiple Wire Gages
The RPT terminal is certified for termination of different wire gages, **even on the same half of the terminal**. The colored arrows show the four mechanically independent slots.

4 Longer Life
The RPT terminal is certified for 300 punch cycles, using 22 to 26 gage wire, facilitating easy and durable re-configuration at any time.

5 Faster & Easier
The wire gripper locates and retains the wire before the punch enabling quick termination with just one hand.

6 Lifetime Tip Replacement
The AVP heavy-duty punch tip is guaranteed for life (and we're still waiting for the first claim).
